Panel Boards

Application

- All units are custom designed and manufactured for optimal fit and function.

Standard

- UL67

Construction

All products are manufactured from 12 gauge galvanized steel or thicker. Stainless and steel can also be used. All parts are welded resulting in longer product life. All sharp edges are removed for safer installation. All connections use C110 copper and can be silvered or tin plated as required. Customer must verify AIC rating requirements.

Finish

When using galvanized steel, all welds are sprayed with cold paint. All other material receives no finish.
